1. Deepashri Nursing & Rehabilitation Center with Old-age home has established at Nagarbhavi in good calm location under CADMS trust at No.13, 3rd main, 11th Block, Nagarbhavi 2nd stage, Bangalore-560072

It is a house for 50 bed center single, double, triple beds with TV, attached toilet and separate kitchen. Separate dining hall, Yoga center and special ramp facility for geriatrics.

This center is specialized to accommodate bedridden, post-head injury, stroke, terminally-ill, post-operative, cancer patients for palliative care and also geriatric patients.

This is one of the unique centers in Bangalore that has medical doctors, nurses, attendants, counsellors and physiotherapists. Specialists and super specialists' consultations, medicines and laboratory investigations can be availed at bedside. Thus far, around 500 residents/patients have been treated in this center.

Physician consultation-Nursing care

Patients referred at CADMS get complete care. A primary care physician or subspecialist must refer patients. If a patient is physician-referred, a timely appointment will be scheduled for a general neurology consultation or for a second-opinion consultation in one of the subspecialty areas.

Doctor Visit

Only general health practitioners are available for doctor's visit to patient's home. They could help in:

- Assessing the patient, monitoring and providing general
- Promoting health education

care

Old age (Geriatric) Home

With an increase in nuclear family, busy and independent lifestyles, the older generation is not taken care of properly and the old age homes have become very essential. CADMS could prove to be an ideal old age home due to its good location, calm, pollution free environment and other basic facilities. Round the clock availability of medical care and nursing staff makes CADMS an ultimate destination for your aged dear ones.

Physiotherapist

Physiotherapists treat patients with physical difficulties resulting from illness, injury, disability or aging. They treat people of all ages including children, the elderly, stroke patients and people with sports injuries. Physiotherapists work with patients to identify and improve their movement and function. They help promote their patients' health and wellbeing, and assist the rehabilitation process by developing and restoring body systems, in particular the neuromuscular, musculoskeletal, cardiovascular and respiratory systems. They devise and review treatment programs, comprising manual therapy, movement, exercise and the application of technological equipment, e.g. ultrasound. Physiotherapists also provide advice on how to avoid injury.

Home care

Home Care (generally referred to as domiciliary care) is a supportive healthcare service provided at the comfort of a patient's home by qualified healthcare professionals. The patients could be at their home throughout the treatment phase and need not use any other long-term or institutional-based nursing care. Most home care services are a combination of professional healthcare and life assistance services.

Care Takers

Caretakers such as nursing staff ward boys and aayas share the following duties:

- Assistance and instructions to patient and their relations.
- Bathing patients including daily oral care and care of nails and pressure points.
- Four hourly, or more frequent attention to pressure points.
- Giving and removing of bed pans and urine pots and hot water bottle.

Health Education & Check-up for Companies, Factories, Schools & Colleges

CADMS is well equipped with all facilities to as a good study and research centre. Students and researchers gain practical exposure to various clinical situations.

Our Advantage

We offer "Home away from home". CADMS believes that a home is the only place that offers peace of mind, confidence and security. Confinement with loved ones makes one forget all

pain, anxiety and sufferings. Recovery from any illness becomes faster when a patient is relaxed and comfortable. CADMS offers this environment. Unlike other old age and nursing homes, CADMS offers various benefits, some of which are mentioned below:

- Committed, qualified, trained and well experience doctors, staffs and pharmacists
- We provide substitutes to ensure continuing in service
- All services supervised and monitored by senior doctors and nursing superintendents
- Specially trained nurses well equipped to handle any emergency and CPR
